

Maxi-Cosi EasyFix

(for attachment with IsoFix and/or 3-point belt)

(in)correct installation is visible immediately. Minimum chance of incorrect installation due to colour indicators.

Maxi-Cosi CabrioFix simple to install on base using click system.

Excellent test results with extra support leg.

Adjustable support leg.

Colour indicators indicate whether the support leg is the right length.

- Excellent test results (in combination with Maxi-Cosi CabrioFix)
- Minimum chance of incorrect installation
- Colour indicators show clearly and immediately whether installation is right or wrong
- Maxi-Cosi CabrioFix simple to install on base using click system
- Maxi-Cosi CabrioFix in combination with Maxi-Cosi EasyFix can be installed with IsoFix and/or 3-point belt
- Before installation always check the car type list on www.maxi-cosi.com

The Maxi-Cosi (without EasyFix) must always be fitted in a rearward facing position (in the opposite direction to the traffic flow) using a standard 3-point seat belt. NEVER place the Maxi-Cosi on a front seat if an airbag is fitted.

All Maxi-Cosi IsoFix applications can be recognised by the yellow markings on the product.
